Personal Profile

I've always been a creative person, with a keen interest in problem solving. In school, 2015 to be precise, I was introduced to Python and I went home and instantly started to research more and spent all week waiting for the next lesson to put what I learnt into practice. That's where my interest in programming started, and since then I've always tinkered and played around with whatever tools I was interested in at the time (C#, Godot, Unity, Python, SQL etc.) I've spent a long time knowing I was interested in it, and now I'm finally ready to pursue a career doing what I love.

Now, I'm partaking in a bootcamp course for software development with JustIT and it has done nothing but solidified my interest in everything programming. Putting my knowledge of creating clean, reusable code and problem solving around difficult but fun challenges whilst having a sense of creativity is precisely what I think I need in my life.

In the future, I hope to continue building my interest and knowledge within an IT career and taking on tasks that differ day-to-day, providing new and exciting challenges whilst making an impact on those using the services I am designing, creating and/or maintaining.

Key Skills

Technical Skills
I have experience in:
- HTML
- CSS
- JavaScript
- SQL
- Python
- C#
- Godot
- Github

Through this experience I have learnt about debugging, source control, data structures, database management and design, using algorithms, creating clean, readable and reusable code, Object Oriented Programming, composition and data analysis. I would say I am confident with all of these technical skills and can demonstrate them efficiently.

Soft Skills
My strengths are: my ability to solve problems ranging in difficulty, I'm an incredibly fast learner, with a persistent and analytical mindset. I'm great at adapting to new languages and concepts and can manage my time efficiently. I communicate well and love to help, I care for my peers and am flexible to taking on new tasks that I've never tried before as I love a challenge.

Training and Education

01/25-Present   **Just IT Training Ltd, London**
                       Digital Skills Bootcamp: Software Development
                       A twelve-week intensive bootcamp covering the fundamentals of
                       Software Development.
- Development of HTML
- Introduction to HTML/JavaScript/CSS
- Developed a web-based product
- Database design
- Built a product using Python

09/2019-07/22   **Halesowen College, Birmingham**
A Level or Btec: Art & Design Level 3

09/2014-07/2019   **Bartley Green School, Birmingham**
GCSE: One Grade 7(**Maths**), 2 Grade 6s (Combined Science & Religious
                       studies), Four Grade 5s (**English**, Computer Science, Combined
                       Science,History), and One Grade 4 (Art).

Employment History

03/23-Present   **Housekeeper**
                       Little Pioneers Walsall Wood, Walsall
- Maintaining and cleaning the nursery - have attention to detail, time management,
  communication, organisation.
- Following Health and Safety - attention to detail, cleanliness, communication, organisation.
- Restocking - organisation, communication, attention to detail, make decisions.
- Safeguarding - attention to detail, caring, adaptive, make decisions, positivity.
